## PROFILE

I am a detail-oriented and proactive web developer with over **3 years** of experience in designing and developing responsive websites. Skilled in **HTML**, **CSS**, **JavaScript**, and **jQuery**, with a strong focus on frontend development using the **Bootstrap** framework. Experienced in creating user-friendly interfaces and building interactive web applications that deliver excellent user experiences.

## WORK EXPERIENCE

### Metacode Innovation – Lahore        2023 – Present

**Frontend Development**

**1: Sanmiwago**

- Led the frontend development of a web application using CodeIgniter, focusing on creating intuitive user interfaces and enhancing user experience.
- Implemented responsive designs and interactive elements using HTML, CSS, and JavaScript, ensuring seamless functionality across devices.

**2: FSVU**

- Developed a comprehensive frontend for a police station management system to effectively manage victims and cases.
- Ensured responsive design for optimal usability across various devices and screen sizes.

**3: EmpireConstruction**

- Contributed to the development of the user interface for the EmpireConstruction project, enhancing the overall user experience.
- Designed responsive layouts and interactive components using HTML, CSS, JavaScript and also Bootstrap, catering to complex workflows and user needs

### Softheight – Lahore        2022 – 2023

**Frontend Development**

**1: Aquafilter.com**

- Developed a fully responsive website using HTML, CSS, and Bootstrap to enhance user experience across various devices.
- Collaborated with the design team to ensure the website's look and feel aligned with the brand's identity and goals
